

IOI OLEOCHEMICAL

In facial creams, medication, sports nutrition or styrofoam packaging – our highly specialized products have such a variety of application areas that we hold them in our hands every day without realizing it.

IOI Oleo GmbH is the German branch of the oleochemical division of the globally active IOI group. With our headquarters in Hamburg and our two production sites in Witten and Wittenberge, we are one of the leading European suppliers of oleochemical specialties for the areas of Personal Care, Pharma, Nutrition and Technical Applications.

Creating
chemical
connections!

To strengthen our team in the CARE Studio, the application lab for our Business Unit Personal Care, we are looking for you to join us as soon as possible at our **Hamburg location** as

Application Engineer (m/f/d) Personal Care

Part-time (20–30 hrs/week), initially limited to approx. 24 months

You want to...

- develop innovative formulations that optimally showcase the benefits of our raw material portfolio.
- independently plan and carry out formulations on a lab scale.
- produce cosmetic prototypes together with external partners to support our sales team and trade fair appearances.
- create technical formulation dossiers to strengthen our technical marketing.
- independently perform and evaluate stability data and physical measurements.
- prepare technical data in the form of reports or presentations.
- participate in trade fairs and events and professionally represent our company there.

We are looking for...

- a successfully completed degree in cosmetic technology or chemistry, a completed training as CTA (m/f/d), or a comparable qualification.
- technical understanding as well as initial professional experience in the development of cosmetic raw materials and/or solid experience in formulation development.
- enthusiasm for the world of cosmetics and routine in handling typical tasks in cosmetic or chemical laboratories.
- enjoyment of a structured and reliable way of working in an interdisciplinary and international team.
- creativity and a proactive approach.
- an analytical and solution-oriented mindset, strong communication skills, and confident English skills.
- proficient use of MS Office, especially Word and Excel.

Your Opportunity

You look forward to a task in which you can take on your own responsibility and a future in which team spirit, mutual support and fun at work are very important. You can also expect flexible working hours and a great working atmosphere.

We are looking forward to your informative application with your salary expectations and your earliest possible starting date. Please send us your documents using the application form on our career website:
