

**IOI OLEOCHEMICAL**

In facial creams, medication, sports nutrition or styrofoampackaging – our highly specialized products have such a variety of application areas that we hold them in our hands every day without realizing it.

IOI Oleo GmbH is the German branch of the oleochemical division of the globally active IOI group. With our headquarters in Hamburg and our two production sites in Witten and Wittenberge, we are one of the leading European suppliers of oleochemical specialties for the areas of Personal Care, Pharma, Nutrition and Technical Applications.

Creating  
chemical  
connections!

To strengthen our Pharmas division, we are looking for you to join our team in **Hamburg (or Witten)** as soon as possible as

## Product Manager (m/f/d) Pharma

### You want to...

- take on global responsibility for a portfolio of pharmaceutical raw materials, excipients, and GMP- and API-grade products.
- use your scientific expertise and market knowledge to actively drive growth in regulated sectors such as pharma, biotech, and CDMO.
- develop global portfolio and lifecycle strategies precisely tailored to market needs and regulatory requirements.
- serve as an internal liaison and provide customers and sales teams with sound technical and scientific advice.
- work closely with R&D, Quality, and Regulatory to ensure product documentation and coordinate the launch readiness of new products.
- achieve your portfolio's revenue and profitability targets through targeted commercial initiatives and market analysis.
- contribute directly your expertise in customer qualifications, audits, and technical evaluations.

### We are looking for...

- a bachelor's or master's degree in pharmacy, chemistry, biochemistry, or chemical engineering.
- at least 3–5 years of relevant professional experience in the field of excipients, raw materials, or GMP/API production.
- substantial practical experience in a product management role or a comparable cross-functional role in regulated industries.
- a solid understanding of formulation science as well as the relevant QC and QA processes.
- the ability to communicate complex scientific content clearly and translate it into tangible customer value.
- fluency in German and English for working in an international environment.
- willingness to travel to our locations as well as occasional international travel.

### Your chance – apply now

You look forward to a task in which you can take on your own responsibility and a future in which team spirit, mutual support and fun at work are very important. You can also expect flexible working hours and a great working atmosphere.

We are looking forward to your informative application with your salary expectations and your earliest possible starting date. Please send us your documents using the application form on our career website:
